Giant Umbrella Sizes & Configurations

All umbrellas are available with or without a valance. The valance creates a softer traditional look whilst umbrellas without valances tend to create a sharper more contemporary appearance.

 Table Clearance 400mm
 Weight 120kg
 Max Wind Speed 65km/h

Note : Suggested 'Max wind speeds' are indicative only and are given solely as information for the operator. Extensive outdoor testing has generated these results in exposed, consistent surroundings, free from turbulent air influences such as tall buildings and land inclinations. Limits should not be misconstrued as any kind of manufacturers warranty or liability for losses or damages caused by wind acting on the umbrellas in either open or closed state. Fully closed umbrella with strap firmly secured can withstand even storm conditions.

Almost any size design can be produced to meet clients own specifications or requirements
